YOUNGO is the Official Children and Youth Constituency of the United Nations Framework Convention on Climate Change. It consists of many youth-led organizations, groups, delegations, and individuals working in climate change-related fields. YOUNGO runs various Working Groups focusing each on specific aspects of the climate change within the UNFCCC negotiations and events to ensure that perspectives of young and future generations are taken into account in the multilateral decision-making processes. Besides that, YOUNGO members observe and report on climate negotiations, and the implications of their outcomes.

[Info](#)

Join the **Youth Sustainable Renewable Energy Hub**.

[Info](#)

Join the **SparkBlue**, an online community engagement platform powered by UNDP. It is a space for development practitioners to think out loud, learn from each other, connect, collaborate and co-create.

[Info](#)

The **Commonwealth Youth Climate Network (CYCN)** which is supported by the commonwealth secretariat has an open membership for youth in commonwealth countries.

[Join](#)[Info](#)

Chatham House is building a diverse community of young people from across Africa and Europe to join an international exchange with policymakers. So if you are tired of feeling disconnected from politics and want to share your views on the major issues shaping our world: Join Chatham House's Common Futures Conversations. Common Futures Conversations is a flagship initiative that aims to create a community of young African and European community leaders and involve them and their ideas in major policy discussions.

[Join](#)

The **Youth Collective** is a global platform made up of more than 2,500 groups, networks, movements or organisations that are led by young people or serving young people. The Collective is diverse – and includes organisations in all corners of the world, working on many different issues. The thing everyone has in common is a belief that young people can lead change and members come together to connect, learn and share.

[Info](#)

It is free to join and through the Youth Collective you will have access to: Funding opportunities through our regular newsletter roundup; Events such as our Donor Dialogues series, bringing together funders and youth civil society to improve access to funding; Networking and collaboration with other youth civil society members through our Facebook group, events and directory; Trainings and resources to strengthen and grow your organisation; Insights from our youth-led research to support youth civil society; Visibility to donors and partners through our Youth Collective map and directory.

Learn

UN CC:Learn provides guidance and quality learning resources to support people, governments and businesses to understand, adapt, and build resilience to climate change. It is a collaborative initiative of 36 multilateral organizations working together to help countries build the knowledge and skills they need to take action on climate change. Take a self-paced Climate Change Course.

[Learn](#)

The **FAO e-learning Academy** provides learning opportunities and multilingual e-learning courses for professionals working in food and nutrition security, social and economic development and sustainable management of natural resources, with the overall goal of strengthening capacity of member countries to achieve the 2030 Agenda for Sustainable Development.

[Learn](#)

A training booklet on how to become a UNFCCC negotiator, a Pocket Guide to the Paris Agreement, a paper that presents the most important decisions made in the Paris Rulebook, from the **Climate Ambition Support Alliance (CASA)**

[Download](#)

Youth Climate Action is a joint project between YOUNGOs, Climates and the International Institute for Sustainable Development to provide young people the support to influence international climate negotiations and national climate action plans.
